Nov 25 1986

Dear Ralph,

This is to send you some belated "maple syrup (Arabic sharab). You remember, of course, the street I grew up on in Bowling Green was Maple, 155 South Maple St., where my father lives still.

Warren was here & told me all abt the bookstore. I've got a copy of Rice's book, Charles said were only a few, what's it worth today?

Warren got 1 sem. appt. here Jan. '87, teaching 1 undergraduate course and helping Creeley with his graduate seminar etc.

What happened that last time East - missed you, tho did get your p-card, no, that was Wales--

Anyway, Geo. has put his hat in ring for modernist job here, but don't think they can hire their own, at least have never tried to.

Tom Clark has proposed exciting book on Charles, and is making some progress, with help of Duncan, Dorn, Harvey, Creeley, and mostly me to begin with. Would appreciate any hand you might give him, too. He sd he tried to call you, without success, are you home? Hope so.

Write, JACK

P.S. George is almost done with cobalt therapy, so should be now getting stronger. Sanders stayed with us a few days last wk & had talked with Collette. Bad scene.
